EN650.B Gran Lattissima Nespresso coffee machine EN650.W Gran Lattissima Nespresso coffee machine 1 Turn the machine off if it is currently on. To turn your Citiz or Essenza Mini model off immediately, press both the Lungo and Espresso buttons simultaneously and wait for the LEDs to go dark. Alternatively, wait until the auto shut-off engages—the default setting is 9 minutes, although you can set it for 30 minutes by following the procedure listed in the user guide.^[2] ^[3] Once you reset the machine to its default settings, the auto shut-off will engage after 9 minutes of disuse, even if you previously set it for 30 minutes. The Espresso button has a picture of a small coffee cup on it; the Lungo has a bigger coffee cup. 2 Press and hold the Lungo button for 5 seconds. After confirming that the machine is off, push down on the Lungo button located on the top of the Citiz or Essenza Mini. Count off 5 seconds while continuing to hold down the button.^[4] ^[5] Both the Citiz and Essenza Mini have only 2 buttons: Espresso, which brews a 40 ml (1.4 fl oz) cup under default operation, and Lungo, which makes a 110 ml (3.7 fl oz) cup as its default. Advertisement 3 Watch for the LEDs to blink fast 3 times, then more slowly. The 3 fast blinks indicate that the machine has been reset to its defaults for brew size and shut-off time. The slow blinking that follows shows that the machine is warming up for operation. Your Citiz or Essenza Mini is ready to brew once the LEDs illuminate steadily.^[6] ^[7] If you don't want to kliM7sserp, DNA, DhaOg, nottop, cliM, ehf, og, tel, oy, kinilb, sroacidni, naelC, dna, acseD, ehretfA, noitamrifnoc, sDEL, hhTaw, dna, erom, eciwt, nottub, kliM, hhSup 5.knilb sroacidni, ehh, uoy, ecno nottub, kliM, eht, fo ogL [11].kinilb, eniam eht, no, no snottub, dengHTTUB, dengHC, HC, HC, HC Hta HobNedoomUneMeNiErAatAxuoyWonkLaDaouY.edomM retnt sdnoceS 3 NottubKliM7hetHdloH.knilb srotacidni naelC0elacseD7litnu nottub kliMehsserP 4 .revewoh ,gnideecorp eroyllpu mraw eniamTiawTaAdAdNwrY YerdY potAndrzelNehw ylidaets pu thgil neht,pu smrao enihcam ehhT .sdnoceS 52 tuba ruf knilb llew sDEL ehT [01].gniwerb4pu gnimraw dna no si enO amissitaL7t3gnitacidni,knilb ot nigeb lliw snottub ehlri sDEL ehT .boj ehod lwIwAlewAdAdHclEkkliRo ,osserpsOgntLUenifoTNot foYnA.snottop 3 stiFoNaGnisserpYbEnihcam7EdisaS .tievomerT3!edomYrowtcf7otWeGnPsidOt6tEnihcamH,GujKlim7evomerTAqRaNwoyI [9].gnibIt eht7edisaS .tiEvomerOtWtoo thgiarts llupGujNhut .resnepsidEaftEwtIhtgtIhtsuIhtcho nikol, nehW.drawtuthgiarts, ti gnallup, yb, guj, klim, evomeR 2 [8].tuo og, sDEL, ehla ecno og teL .sdnoceS 2, enihcam, eht, no, erutcip, puc, eafoc, lams, htiw, nottub, osserpsE, na (ti no erutcip, eofoc, gib, ehtiw) nottub ognuL, htttop nwod dloh, esiwrehtO .pets sipiks, ncaht, uhte, iert, seh, Ihte, Ihte no sDEL has fno no ful .ffo enihcam7nrut6ot snottub, sserpsE0dnal7htSserP1 tenemesitrevdA .ediug resu7a snoitcurtsni eht and wollof,erutufl Sgnites fu-tuhs otua dna ezis verb tluafed ehegnahc ot ot noUweI.emasTaTaThgr EHT EHT LED blinks, let go of the button once again. Then, press it one last time and watch for all 3 buttons to blink 3 times.^[12] These 3 last blinks indicate that the Lattissima One has been reset to its factory settings. This primarily impacts the amount of coffee dispensed—40 ml (1.4 fl oz) for Espresso, 110 ml (3.7 fl oz) for Lungo, and 40 ml (1.4 fl oz) of coffee when using the Milk button—and the auto shut-off time—9 minutes. Advertisement 1 Press the lever down for 3 seconds to turn off the machine, if needed. This is the lever on the front of the machine that you lift up in order to insert a coffee capsule. After 3 seconds, watch for the green LED indicator on the top of the machine to shut off.^[13] Skip this step if the machine is already off. 2 Push both the lever and the brew button down for 3 seconds. Push down on both simultaneously until you see the button's LED light up in orange. This steady-on orange LED shows that you've entered the Special Functions menu.^[14] The Vertuo Plus is designed for simplicity of use, so it only has 1 lever on the front and 1 button on the top. 3 Press the lever down completely 3 times in a row. Doing so puts the Vertua Plus into its Factory Reset mode. Watch for the LED on the button to blink orange rapidly about 3 times every 2 seconds—to confirm that you're in Factory Reset mode.^[15] Complete the following (and final) step within 2 minutes, or the machine will automatically exit its Factory Reset mode. 4 Press the blinking button to reset the device to factory settings. When you push the button, it will go from blinking orange quickly to blinking orange more slowly—1 time per second for 3 seconds. Then, the button's LED will switch to green and remain on. This confirms that the factory reset is complete and the Vertua Plus is ready to brew.^[16] Under factory settings, the dispensing sizes are as follows: Alto, 414 ml (14.0 fl oz); Coffee, 230 ml (7.8 fl oz); Espresso, 40 ml (1.4 fl oz). The auto kliM esht neh W.deal.business Time is set at 9 minutes. Advertising 1 Press and hold the Lungo and Espresso buttons to turn off the machine. These buttons are located at the top of the Prodigy. After 3 seconds, all the LEDs on the mÁoquina will turn off, indicating that the mÁoquina is off. ^[17] Skip this step if the machine is already turned off. The lungo botÃ³n has a large cup symbol of cafÃ©, while the espresso has a small cup symbol of cafÃ©. 2 Press the same buttons again, this time for 5 seconds. After 5 seconds of holding down the Lungo and Espresso buttons, all the LEDs on the machine will blink once. This indicates that the machine has now been reset to the configuration, which includes the following: ^[18] Size of service: Lungo, 110 ml (3.7 fl oz); Espresso, 40 ml (1.4 fl oz); Ristretto, 25 ml (0.85 fl oz). Auto-close time: 9 minutes. Configuration water hardness: hard. Pairing with the phone: not apart. 3 Use your phone if you just want not to be able to the Prodigy. Doing the full factory restores discounts on the prodigy from your phone, but also changes other settings that may have the same. If you simply want to remove the pairing between your phone and the machine, open the Nespresso app to your phone and do the following: ^[19] Click on the named machine (if paired with multiple Nespresso models, make sure you click on the name of this Prodigy machine). Click on "Status of the machine". Click on "Override this device" to confirm. Announcement 1 Select the option Configuration on the screen of Creatitsa. Creatitsa is one of the few Nespresso model lines that includes a screen display, making resetting the machine a simpler process. With the machine turned on, turn the select dial (located) ogeul ogeul y oicinier le ajilE 2 .aniuqiÃm al rednecne arap nÃicceles ed laid la otnuj odacibu ralecnaC/oiciniI nÃÄtob le enoiserp ,adagapa iÄtse astitaerc us iS]02[.nÃÄicceles ed laid le ne ojaba aicah enoiserp ogeul ,nÃÄicarugifnoc ed nÃÄicpo al etlaser es euq atsah jallatnap al ed Rest options on the screen. Use the dial to highlight the reset option (restore) in the MenÃº Settings (adjustments) and, below, press down in the dial. Highlight the Factory Reset Opcion. If you want to restore the sizes of the drink, choose the option Coffee Reset in the second menÃº. 3 Confirm your selection and allow the corner to restart. Highlight the verification mark symbol (âœœâœœ") and press the selection dial to confirm the restoration of the drink. The corner will turn off automatically and will restart with its original favric configuration. ^[22] The same verification mark will appear if it is restarting the configuration of the drink. However, the corner will not turn off or restart in this case. If you change the opinion in the last minute, select the cancellation option (indicated by an x) instead of the verification mark.
